💡 PROJECTS

Commercial projects

I have worked on different commercial projects.

APIs

I have created APIs for the mobile application using PHP.

Import Export business website

I have created a website for import export business.

It contains dynamic pages like product listing with category-wise filter and product details page.

E-commerce website & Admin

I have developed a website for a handicraft shop from where users can buy handicraft products online.

I have also created an admin panel that manages products, product categories, and orders.

✅ DECLARATION

I declare that the information mentioned in my resume is correct and complete to the best of my knowledge.
